MARKET 1: Second/third year modules on Abnormal Psychology within an undergraduate Psychology degree. Particularly useful for lower-level institutions, or those with students who do not have English as a first language.

This comprehensive textbook communicates the complexities of abnormal psychology, speaks to the concerns of students, and empathically portrays the real human impact of psychological disorders. For the ninth edition, award-winning teacher Ronald Comer is joined by Jonathan Comer, who brings his expertise in developmental psychopathology research, brain circuitry, cognitive-behavioural research, and technology-driven treatment. With its signature integrated coverage of theory, diagnosis, and treatment, and inclusive cross-cultural perspective, this new edition is an engaging introduction to where the study and treatment of psychological disorders stands today.

Fully updated for DSM-5, this exciting revision complements the abnormal psychology course by providing 17 case histories based on the authors' clinical experiences. Each case study goes beyond DSM-5 diagnosis to describe the individual's history and symptoms, a theoretical discussion of treatment, a specific treatment plan, the actual treatment conducted, and assessment questions for students. The casebook also provides three "You Decide" cases -- written without diagnosis or treatment, so students can identify disorders and suggest appropriate therapies. This new edition adds assessment questions to the end of each case and also features three brand new cases: hoarding, somatic symptom disorder, and gender dysphoria.

The casebook provides 17 additional case histories based on the authors' clinical experiences, each going beyond DSM-IV diagnosis to describe the individual's history and symptoms, a theoretical discussion of treatment, a specific treatment plan, and the actual treatment conducted. The casebook also provides 3 cases without diagnosis or treatment, so students can identify disorders and suggest appropriate therapies.
