This book provides information on the U. S. government's Occupational Safety and Health Administration's safety programs. It details how to start and maintain a safety program in a municipal or industry-based water or wastewater plant with special emphasis on the practical elements of implementation. Revisions include the changing OSHA regulations and recommendations, and new sections on ergonomics, hypochlorites and bisulfites, and confined space entry techniques, and new information on health hazards. Highlights include: safety programs, recordkeeping, safety training, safety equipment, and safe work practices for wastewater treatment facilities.

This companion to the bestselling Introduction to Health and Safety in Construction will help you prepare for the written assessments on the NEBOSH National Certificate in Construction Health and Safety (October 2009 specification). It provides complete coverage of the syllabus in bite-sized chunks and will help you learn and memorise the most important areas, with links provided back to the main Introduction to Health and Safety in Construction text to help you consolidate your learning. This revision guide is written by an experienced lecturer who has spent many years helping students become accredited by NEBOSH. Ed Ferrett is former Vice Chairman of NEBOSH (1999-2008) and a lecturer on NEBOSH courses with both public and private course providers. He is a Chartered Engineer and Health and Safety Consultant.
