tragic revelation, Yuko Moriguchi had nothing to live for except her only child, four-year-old child, Manami. Now, following an accident on the grounds of the middle school where she teaches, Yuko has given up and tendered her resignation. But first she has one last lecture to deliver. She tells a story that upends everything her students ever thought they knew about two of their peers, and sets in motion a diabolical plot for revenge. Narrated in alternating voices, with twists you'll never see coming, *Confessions* probes the limits of punishment, despair, and tragic love, culminating in a harrowing confrontation between teacher and student that will place the occupants of an entire school in danger. You'll never look at a classroom the same way again.

Reveals the spiritual and ascetical life of Saint Augustine

Sarah Ruden's fresh, dynamic translation of Confessions brings us closer to Augustine's intent than any previous version. It puts a brilliant spotlight on the life of one individual to show how all lives have meaning that is universal and eternal. In this intensely personal narrative, Augustine tells the story of his sinful youth and his conversion to Christianity. He describes his ascent from a humble farm in North Africa to a prestigious post in the Roman Imperial capital of Milan, his struggle against his own overpowering sexuality, his

renunciation of secular ambition and marriage, and the recovery of the faith his mother had taught him during his earliest years. Augustine's concerns are often strikingly contemporary, and the confessional mode he invented can be seen everywhere in writing today. Grounded in her command of Latin as it was written and spoken in the ancient world, Sarah Ruden's translation is a bold departure from its predecessors - and the most historically accurate translation ever. Stylistically beautiful, with no concessions made to suit later theology and ritual, Ruden's rendition will give readers a startling and illuminating new perspective on one of the central texts of Christianity. -- from dust jacket.

In 1940s Los Angeles, an unidentified murder victim is found

bisected in a shadowy lot. A catchy nickname is given her in jest—"The Virgin Tramp"—and suddenly a "nice little homicide that would have drifted off the front pages in a couple of days" becomes a storm center. Two brothers, Tom and Des Spellacy, are at the heart of this powerful novel of Irish-Catholic life in Southern California just after World War II. Played in the film version by Robert Duvall and Robert De Niro respectively, Tom is a homicide detective and Des is a priest on the rise within the Church. The murder investigation provides the background against which are played the ever changing loyalties of the two brothers. Theirs is a world of favors and fixes, power and promises, inhabited by priests and pimps, cops and contractors, boxers and jockeys and lesbian fight promoters and lawyers who know how to put the

fix in. A fast-paced and often hilarious classic of contemporary fiction, True Confessions is about a crime that has no solutions, only victims. More important, it is about the complex relationship between Tom and Des Spellacy, each tainted with the guilt and hostility that separate brothers.

Books V-IX of the Confessions trace five crucial years in the life of Augustine, from his debut as a teacher of rhetoric in North Africa to his baptism as a Christian and the renunciation of a worldly career in Milan. This commentary will be invaluable for those wishing to read his story in the original Latin. Through careful glosses and notes, Augustine's Latin is made accessible to students of patristics and of classics. His extensive quotations from Scripture are translated and explained in light of the variant Bible texts and

the interpretative assumptions through which he came to understand them. The unfolding of his career is set against the background of political, cultural, and religious change in the fourth century, and the art with which he created a form of narrative without precedent in earlier Latin literature is illustrated in close detail.

In which a scientist searches for an empirical explanation for phenomenal experience, spurred by his instinctual belief that life is meaningful. What links conscious experience of pain, joy, color, and smell to bioelectrical activity in the brain? How can anything physical give rise to nonphysical, subjective, conscious states? Christof Koch has devoted much of his career to bridging the seemingly unbridgeable gap between

the physics of the brain and phenomenal experience. This engaging book--part scientific overview, part memoir, part futurist speculation--describes Koch's search for an empirical explanation for consciousness. Koch recounts not only the birth of the modern science of consciousness but also the subterranean motivation for his quest--his instinctual (if "romantic") belief that life is meaningful. Koch describes his own groundbreaking work with Francis Crick in the 1990s and 2000s and the gradual emergence of consciousness (once considered a "fringy" subject) as a legitimate topic for scientific investigation. Present at this paradigm shift were Koch and a handful of colleagues, including Ned Block, David Chalmers, Stanislas Dehaene, Giulio Tononi, Wolf Singer, and others. Aiding and abetting it were new techniques to

listen in on the activity of individual nerve cells, clinical studies, and brain-imaging technologies that allowed safe and noninvasive study of the human brain in action. Koch gives us stories from the front lines of modern research into the neurobiology of consciousness as well as his own reflections on a variety of topics, including the distinction between attention and awareness, the unconscious, how neurons respond to Homer Simpson, the physics and biology of free will, dogs, Der Ring des Nibelungen, sentient machines, the loss of his belief in a personal God, and sadness. All of them are signposts in the pursuit of his life's work--to uncover the roots of consciousness.
