Brian J. Walsh and J. Richard Middleton offer a vision for transforming economics, politics, technology and every part of contemporary culture.

Winner of a 2004 ECPA Gold Medallion Award! Winner of an Award of Excellence in the 2003 Chicago Book Clinic! What is real? What is truth? What can we know? What should we believe? What should we do and why? Is there a God? Can we know him? Do Christian doctrines make sense? Can we believe in God in the face of evil? These are fundamental questions that any thinking person wants answers to. These are questions that philosophy addresses. And the answers we give to these kinds of questions serve as the the foundation stones for constucting any kind of worldview. In *Philosophical Foundations for a Christian Worldview* J.P. Moreland and William Lane Craig offer a comprehensive introduction to philosophy from a Christian perspective. In their broad sweep they seek to introduce readers to the principal subdisciplines of philosophy, including epistemology, metaphysics, philosophy of science, ethics and philosophy of religion. They do so with characteristic clarity and incisiveness. Arguments are clearly outlined, and rival theories are presented with fairness and accuracy. Philosophy, they contend, aids Christians in the tasks of apologetics, polemics and systematic theology. It reflects our having been made in the image of God, helps us to extend biblical teaching into areas not expressly addressed in Scripture, facilitates the spiritual discipline of study, enhances the boldness and self-image of the Christian community, and is requisite to the essential task of integrating faith and learning. Here is a lively and thorough introduction to philosophy for all who want to know reality.

This remarkable work offers an analytical exploration of the nature of divine eternity and God's relationship to time.

Why doesn't God answer my prayers? If God is so powerful, why does evil exist? And if He is so good, why do we suffer? Nonbelievers, and even Christians, are often troubled by questions about suffering, doubt, failure, and unanswered prayer. Yet careful, compassionate answers are hard to find, in part because evangelicals have not taken the life of the mind seriously enough. The intellectual currents of our day are just too strong for simplistic responses. In *Hard Questions, Real Answers*, William Lane Craig doesn't offer trite phrases or pat answers-he offers honest insights gained from a life of study and ministry. Readers in the midst of doubt and confusion will find real answers to these perplexing questions and learn to stand on the only sure foundation for hope-God Himself. This expanded new edition includes chapters on abortion and homosexuality to help readers know how to think about these volatile social issues.

What's the point of studying philosophy when we have theology? Philosophy sometimes suffers from an inferiority complex in the church. But Paul Copan contends that it is possible to affirm theology's preeminence without diminishing the contribution of philosophy. This brief introduction surveys philosophy's basic aims and defends its function in the Christian life.

Revised & Expanded for this special 25th anniversary edition, Ken Ham once again takes the lead in pointing out the looming precipice too many church leaders are rushing towards: a denial of the full authority and accuracy of the Bible from its very first verse. In addition, Ken powerfully shows how the ideas of evolution and millions of years are driving young people away from the Christian faith, and provides solid, biblical solutions to turn things around. Published in 1987, this book took a bold stand which became prophetic. Ken warned the church about

the destructive effects of compromise with evolutionary/millions of years ideas. He warned that compromise in Genesis would undermine Scriptural authority in the culture and erode confidence in the infallibility of God's Word. Today, Christians (and those considering the Christian faith) increasingly doubt the Bible's reliability. Compromising Genesis has led to a generational loss of an acceptance of the absolute authority of the Word of God, and leading to an exodus of young people from the church Why Genesis remains critically important in presenting the Gospel This slippery slope of reinterpreting Scripture to redefining biblical doctrine Discover how your handling of the biblical account of creation impacts your understanding of all of Scripture and your worldview The issues are of critical importance when you realize that today we have Christians not only confused when it comes to Genesis and the age of the earth, but now even the reality of Hell, Adam as a real person, and Christ's own words about creation, marriage and more are debated in the pulpits across the world. One compromise just leads to another – and it has to end if we want to leave a legacy of faith to future generations.

un Analisis del desarrollo de la educacion teologica y una propuesta tecnologica contemporanea

In this spiritual warfare manual, Dr. Brown writes from seven years' experience helping deliver many, many people out of hardcore satanism. In this sequel to Dr. Brown's best-selling book *He Came to Set the Captives Free*, you will learn to: Stand victoriously against Satan. Deal with the dangerous New Age teachings. Recognize and deal with satanic ritualistic abuse of children. Minister in the area of deliverance. Handle the rarely discussed problems people face after deliverance. It's shocking! It's graphic! But this is war! Do you know how Satan can use "doorways," including yoga, role-playing games, and meditation, to bring demonic destruction into your home? Satan hates you and wants to destroy you. To be victorious you must Prepare for War.

The power of the gospel to transform individual lives has been evident throughout New Testament history. But what of the darkness and poverty that enslave entire nations? Miller builds a powerful, convincing thesis that God's truth can free whole societies from deception and poverty. Excellent study of worldviews!

This book is an arresting interdisciplinary publication on Christian education, comprising works by leading scholars, professionals and practitioners from around the globe. It focuses on the integrated approaches to Christian education that are both theoretically sound and practically beneficial, and identifies innovative pedagogical methods and tools that have been field-tested and practice-approved. It discusses topics such as exploring programmes and courses through different lenses; learning challenges and opportunities within organisational management; theology of business; Christian models of teaching in different contexts; job preparedness; developing different interpretive or meaning-making frameworks for working with social justice, people with disability, non-profit community organisations and in developing country contexts. It offers graduate students, teachers, school administrators, organisational leaders, theologians, researchers and education practitioners a fresh and inspiring reimagining of Christian education perspectives and practices and the ramifications of their application to life-long learning.
