Why does DSG use more fuel? | What Car?

Traditional automatic transmissions can also beat manual fuel economy. Today's automatics tend to have more forward gears (those are gears that move the car forward, not in reverse) than manual transmissions do. Those extra gears help the engine deliver the same power to the wheels while working at a lower engine speed, which saves gas.

Which has better fuel economy: manual or automatic ...

Not much difference, but definitely an indicator that the manual would provide at least slightly better fuel savings than the DSG.

This was surprising since I'd seen some other models where a sequential transmission actually betters the manual on fuel economy. I thought this was a new trend that was happening everywhere, but apparently not.
