From #1 New York Times bestseller Katherine Applegate, a singular middle-grade novel about a girl who risks everything to help a handmade creature who comes to life. The earth is old and we are not, and that is all you must remember ... Eleven-year-old Willodeen adores creatures of all kinds, but her favorites are the most unlovable beasts in the land: strange beasts known as "screechers." The villagers of Perchance call them pests, even monsters, but Willodeen believes the animals serve a vital role in the complicated web of nature. Lately, though, nature has seemed angry indeed. Perchance has been cursed with fires and mudslides, droughts and fevers, and even the annual migration of hummingbears, a source of local pride and income, has dwindled. For as long as anyone can remember, the tiny animals have overwintered in shimmering bubble nests perched atop blue willow trees, drawing tourists from far and wide. This year, however, not a single hummingbear has returned to Perchance, and no one knows why. When a handmade birthday gift brings unexpected magic to Willodeen and her new friend, Connor, she 's determined to speak up for the animals she loves, and perhaps even uncover the answer to the mystery of the missing hummingbears. A timely and timeless tale about our fragile earth, and one girl 's fierce determination to make a difference.

A humorous, illustrated pocket field guide that enables anyone to quickly identify psychotic, violent or mentally unstable bird species.

Why is a flamingo pink? Can a parrot talk? Is a bald eagle really bald? This follow-up to the hugely successful The Big Book of Bugs, The Big Book of Beasts and The Big Book of the Blue answers these questions and many more. It opens with introductory spreads explaining how to recognize different bird's eggs, the bird family tree, why different species of birds have different beaks and feathers, and why some birds migrate and travel vast distances every year. Subsequent spreads, illustrated with various habitats, are dedicated to specific varieties of bird, including hummingbirds, peacocks, flamingos, bald eagles, secretary birds, albatrosses and red-crowned cranes. Some will teach children how to spot different birds within a specific variety, for example how to differentiate the American robin from the European robin. Others explore bird habitats, for example showing how birds adapt to live in cities. Finally, the book invites young bird spotters to protect birds where they live and make their gardens bird friendly. This is a big, beautiful book to look at again and again.
