Dornbusch, Fischer, and Startz Macroeconomics has been a leading intermediate macroeconomic theory text since its introduction in 1978. This revision retains most of the texts traditional features, including a middle-of-the-road approach and very current research, while updating and simplifying the exposition. The text is now even easier to teach from. The only prerequisite continues to be principles of economics.

Fully updated, this classic best-seller presents a modern view of macroeconomics at a level accessible for students.

The third edition of Dornbusch's Macroeconomics is a leading intermediate macroeconomic theory text. This revision retains most of the traditional features, including a middle-of-the-road approach and very current research, while updating and simplifying the exposition. A completely new chapter on big events pulls together material on the Great Depression, budget deficits and hyperinflation. Students will get a background on these important economic events and will learn principles which are harder to identify in smoothly running economies. Macroeconomics maintains strong global coverage, offering an extensive international orientation for an increasingly globalised world.

An abridged version of Begg, Fischer and Dornbusch's Economics which maintains the academic quality, clarity and rigor of the parent text in a shorter and more concise textbook. This edition provides clear exposition and analysis of the principles of economics, focusing on the core theories and applications of the subject. It should be ideal for non-e conomics students taking a short introductory module over one semester, or for those looking for a concise alternative to some of the larger or more cumbersome textbooks. The text is accompanied by a free student CD-ROM featuring a variety of learning resources, and both students and lecturers will find further case material, study questions, teaching and revision notes and a wealth of other resources at the Online Learning Centre.
