Charles I. (Chad) Jones is an economist noted for his research on long-run economic growth. In particular, he has examined theoretically and empirically the fundamental sources of growth in incomes over time and the reasons underlying the enormous differences in standards of living across countries. In recent years, he has used his expertise in macroeconomic methods to study the economic causes behind the rise in health spending and top income inequality.

Teaches students how macroeconomics is studied and applied in the 21st century.

Combining innovative treatment of macroeconomic concepts with the clearest presentation of long-run growth theory, Jones offers students an accessible and truly modern introduction to the field. With new primers, important updates on the aftermath of the great recession, and over 90 updated charts and tables, Macroeconomics, Fourth Edition, is the ideal text for exposing undergraduates to current perspectives at a level they can understand.

Modern and practical macroeconomics Chad Jones's Macroeconomics teaches students to think like modern macroeconomists, with strong and engaging growth coverage and a more intuitive approach to models. Praised by adopters for its clear explanations, flexible organization, timely case studies, data, and emphasis on problem solving, Macroeconomics gives students the practical tools they need to understand and analyze the macroeconomy. This innovative text makes macroeconomics less complicated without sacrificing rigor.

Examining empirical evidence such as how rich are the rich countries, how poor are the poor, and how fast do rich and poor countries grow, noted economist Charles Jones presents major theories of economic growth, from the Nobel Prize-winning work of Robert Solow to new growth theory that has ignited the field in recent years.
