## Modern Digital

BittWare. One of the major challenges of modern military Digital Signal Processing (DSP) is dealing with the ever-widening bandwidth of digitized signals. Until fairly recently, analog-to-digital converters (A/D converters) were limited to only hundreds of MHz, so anything beyond that had to be dealt with using

# Read Book

## Modern Digital

traditional RF/analog methodologies. Now that A/D converters are available in the GHz range, much wider band processing is moving to the digital domain.
