Get the old "Screen Resolution" or "Display Settings" back ...
The screen resolution is defined in values 0001 and 0002 of the registry key. It represents the physical number of pixels displayed on your screen. Value 0001 represents the width of the screen and value 0002 represents the height of the screen. Therefore, when a resolution of "800x600" is referenced, this means 800 pixels wide, 600 pixels tall.
