User Guide - SAP Help Portal

The SAP Easy Access menu offers a user-specific entry point and navigation options in the SAP system. In this context, “user-specific” means that the tree structure displays only those transactions with which you may work according to your role (see Chapter 13, The Role and Authorization Concept, for details on roles).

FIM jobs are using FC web services calls to import package data or manual journal entry into FC. Web services are supposed to provide a simply and loose-coupling integration option between applications. In reality, it's often the most complex component to implement in a FIM and FC integration environment.
