Businesses these days talk a lot about figuring out what the customer wants. Well, here ' s your first lesson: the customer doesn ' t know what he wants. This book is going to show you how to convince him he wants the thing you ' re selling. Les Gold has been in business since age twelve, when he started selling used golf clubs from his dad ' s basement. Now he owns Detroit ' s biggest pawnshop, American Jewelry and Loan, and is the star of the hit reality TV show Hardcore Pawn. As a third-generation pawnbroker, Gold grew up in the business, dealing with customers who could be unruly and violent as often as they were friendly. He became good at selling just about anything and at buying items for what they were worth. Although he started at his family ' s small pawnshop, he has now expanded into a fifty-thousand-square-foot former bowling alley, making a thousand deals a day. On any given day, he could be taking a vintage car in to pawn or chasing down a thief who ' s just stolen a gold chain from the store. No business school in the world can teach you as much about buying, selling, negotiating, managing employees, dealing with customers, advertising, tracking trends, and predicting the economy ' s ups and downs. In this entertaining, honest book, Gold takes you inside some of his weirdest, wackiest deals and steals. From the monkey his dad once took in to pawn to the deal Gold made for a stripper pole, he has no boundaries for what he considers to be part of his business—and neither should you. You will learn: How to tell an emotional story when you ' re selling—and take emotion out of the transaction when you ' re buying Why judging your customers before you know them can kill a potential deal How to deal with risk, both mental and physical How to communicate with employees (even if they ' re your own kids) Why investing in relationships with your community is time well spent Why your business should never be limited by what others tell you it should be No place in the world prepares you better for the working world than a pawnshop, and Les Gold takes you inside his shop to share what he ' s learned from fifty-five years in the most interesting job in the world.

"Please teach me Indian cooking! I will bring ingredients and pay you for your trouble. I would like to know about your culture as well." And with this posting on Craigslist, so begins Nani Power's journey to learn traditional Indian cooking in the most ancient of ways — woman to woman. Welcomed warmly into the homes of strangers, Power meets women of all ages and backgrounds, and from them learns the skills that were passed on to them from their own mothers.

Power takes the reader into a culture, a cuisine, and the female psyche, with recipes and stories from each chapter revealing the struggle of modern women, both American and of Indian descent, searching for identity and a definition of what it means to be a woman today. The recipes shared in this collection are far from ordinary; they are treasured family recipes from vegetarian homes in India — from homemade cheese cubes in a rich cilantro and almond curry to coconut—stuffed okra and luscious potato—curry dumplings. Power's recipes and stories pave the road to understanding a culture that is at the same time ancient and so very much part of our modern world.

Draws on more than forty interviews with Steve Jobs, as well as interviews with family members, friends, competitors, and colleagues to offer a look at the co-founder and leading creative force behind the Apple computer company.

A New York Times Bestseller Winner of the James Beard Award for General Cooking and the IACP Cookbook of the Year Award "The one book you must have, no matter what you ' re planning to cook or where your skill level falls,"—New York Times Book Review Ever wondered how to pan-fry a steak with a charred crust and an interior that's perfectly medium-rare from edge to edge when you cut into it? How to make homemade mac 'n' cheese that is as satisfyingly gooey and velvety-smooth as the blue box stuff, but far tastier? How to roast a succulent, moist turkey (forget about brining!)—and use a foolproof method that works every time? As Serious Eats' culinary nerd-in-residence, J. Kenji López-Alt has pondered all these questions and more. In The Food Lab, Kenji focuses on the science behind beloved American dishes, delving into the interactions between heat, energy, and molecules that create great food. Kenji shows that often, conventional methods don ' t work that well, and home cooks can achieve far better results using new—but simple—techniques. In hundreds of easy-to-make recipes with over 1,000 full-color images, you will find out how to make foolproof Hollandaise sauce in just two minutes, how to transform one simple tomato sauz into a half dozen dishes, how to make the crispiest, creamiest potato casserole ever conceived, and much more.

An encyclopedia designed especially to meet the needs of elementary, junior high, and high school students.

Nunn chronicles her quest to overcome the convergence of the sudden loss of her brother, being dumped by her fiancé , and being evicted from her apartment by cooking her way across the country while staying with friends and family. Traveling back home, she revisited scenes from her dysfunctional Southern upbringing, dominated by her dramatic, unpredictable mother and her silent, disengaged father. Nunn came to realize food is a source of connection and identity, and with it came a sense of hope for the future. Includes recipes.

A 2018 Pura Belpré Author Honor Book The First Rule of Punk is a wry and heartfelt exploration of friendship, finding your place, and learning to rock out like no one ' s watching. There are no shortcuts to surviving your first day at a new school—you can ' t fix it with duct tape like you would your Chuck Taylors. On Day One, twelve-year-old Mal ú (Mar í a Luisa, if you want to annoy her) inadvertently upsets Posada Middle School ' s queen bee, violates the school ' s dress code with her punk rock look, and disappoints her college-professor mom in the process. Her dad, who now lives a thousand miles away, says things will get better as long as she remembers the first rule of punk: be yourself. The real Mal ú loves rock music, skateboarding, zines, and Soyrizo (hold the cilantro, please). And when she assembles a group of like-minded misfits at school and starts a band, Mal ú finally begins to feel at home. She'll do anything to preserve this, which includes standing up to an anti-punk school administration to fight for her right to express herself! Black and white illustrations and collage art throughout make The First Rule of Punk a perfect pick for fans of books like Roller Girl and online magazines like Rookie.

Linda Kaplan Thaler and Robin Koval have moved to the top of the advertising industry by following a simple but powerful philosophy: it pays to be nice. Where so many companies encourage a dog eat dog mentality, the Kaplan Thaler Group has succeeded through chocolate and flowers. In THE POWER OF NICE, through their own experiences and the stories of other people and businesses, they demonstrate why, contrary to conventional wisdom, nice people finish first. Turning the well-known adage of " Nice Guys Finish Last " on its ear, THE POWER OF NICE shows that " nice " companies have lower employee turnover, lower recruitment costs, and higher productivity. Nice people live longer, are healthier, and make more money. In today ' s interconnected world, companies and people with a reputation for cooperation and fair play forge the kind of relationships that lead to bigger and better opportunities, both in business and in life. But being nice doesn ' t mean acting wimpy. In fact, nice may be the toughest four-letter word you ' ll ever encounter. Kaplan Thaler and Koval illustrate the surprising power of nice with an array of real-life examples from the business arena as well as from their personal lives. Most important, they present a plan of action covering everything from creating a positive impression to sweetening the pot to turning enemies into allies. Filled with inspiration and suggestions on how to supercharge your career and expand your reach in the workplace, THE POWER OF NICE will transform how you live and work.
