Alongside everything the young oceanographer needs to know, Zommer's charming illustrations bring to life some of the slipperiest, scaliest, strangest, and most monstrous underwater animals. The book opens by explaining how different types of animals are able to breathe and survive underwater, and the different families to which they belong. Subsequent pages are dedicated to specific creatures, including sea turtles, whales, sharks, stingrays,

The Big Book of the Blue also explores the underwater world thematically, looking at animals in danger, learning how to spot creatures at the beach, and discovering how to do our part to save sea life. Beautiful and filled with fascinating facts, young, curious readers won't be able to tear their eyes away from the page.
