The Oxford Encyclopedia of Ancient Greece and Rome is the clearest and most accessible guide to the world of classical antiquity ever produced. This multivolume reference work is a comprehensive overview of the major cultures of the classical Mediterranean world--Greek, Hellenistic, and Roman--from the Bronze Age to the fifth century CE. It also covers the legacy of the classical world and its interpretation and influence in subsequent centuries. The Encyclopedia brings the work of the best classical scholars, archaeologists, and historians together in an easy-to-use format. The articles, written by leading scholars in the field, seek to convey the significance of the people, places, and historical events of classical antiquity, together with its intellectual and material culture. Broad overviews of literature, history, archaeology, art, philosophy, science, and religion are complimented by articles on authors and their works, literary genres and periods, historical figures and events, archaeologists and archaeological sites, artists and artistic themes and materials, philosophers and philosophical schools, scientists and scientific areas, gods, heroes, and myths. Areas covered include: · Greek and Latin Literature · Authors and Their Works · Historical Figures and Events · Religion and Mythology · Art, Artists, Artistic Themes, and Materials · Archaeology, Philosophers, and Philosophical Schools · Science and Technology · Politics, Economics, and Society · Material Culture and Everyday Life

"This comprehensive five-volume work analyzes the archaeological and linguistic data that pertain to the broad cultural milieu of the ancient Near East, the crossroads of three of the world's most influential religions -- Judaism, Christianity, and Islam. Ranging from prehistoric times up to the early centuries of the rise of Islam, the work covers the civilizations of Syria-Palestine, Mesopotamia, Anatolia, Iran, Arabia, Cyprus, Egypt, and the coastal regions of North and East Africa. It includes 1,125 alphabetically arranged entries on sites, languages, material culture, archaeological methods, organizations and institutions, and major excavators and scholars of the field. This one-of-a-kind, accessibly written reference brings new breadth to the study of archaeology in the biblical world, making it a valuable resource not only to scholars and students of archaeology, but also to those with an interest in ancient art and architecture, languages, history, and religion." -- Alibris.com.

Featuring 600 original articles written by leading experts, it goes far beyond the findings of archaeology to include social, political, religious, cultural and artistic information on the Nile Delta civilization.

What were the economic roots of modern industrialism? Were labor unions ever effective in raising workers' living standards? Did high levels of taxation in the past normally lead to economic decline? These and similar questions profoundly inform a wide range of intertwined social issues whose complexity, scope, and depth become fully evident in the Encyclopedia. Due to the interdisciplinary nature of the field, the Encyclopedia is divided not only by chronological and geographic boundaries, but also by related subfields such as agricultural history, demographic history, business history, and the histories of technology, migration, and transportation. The articles, all written and signed by international contributors, include scholars from Europe, Latin America, Africa, and Asia. Covering economic history in all areas of the world and segments of economies from prehistoric times to the present, The Oxford Encyclopedia of Economic History is the ideal resource for students, economists, and general readers, offering a unique glimpse into this integral part of world history.

Ranging from ancient Greek tragedies to the latest developments in London, Paris, New York, and around the globe, The Oxford Companion to Theatre and Performance provides an all-embracing approach that encompasses drama and musical, opera and film, dance and radio, and non-dramatic performances including circuses, carnivals, and parades. Based on the celebrated two-volume Oxford Encyclopedia of Theatre and Performance, this

compact, affordable Companion features more than 2,000 up-to-date entries, covering styles and movements, buildings, organizations, regions, and traditions--with a particularly strong focus on biographies of actors, playwrights, directors, designers, and critics. Editor Dennis Kennedy has significantly updated the timeline of historical and cultural events in the world of theatre and performance, and he has added an appendix of useful weblinks, which are supported and accessible through a companion website. Finally, the book includes many new entries that cover the people and companies who have come into prominence since the publication of the Encyclopedia.

Entries offer information on the geography, history, arts, literature, religion, and architecture of Pre-Hispanic, Colonial, and modern Mesoamerican cultures that span from central Mexico to present-day Costa Rica.

Over 2,500 entries cover terms, places, and personalities significant in the study of ancient Greece and Rome.
