Good morning. I thank you and Droid Usrr for very useful information provided. Both of you are correct, water repellant is very different than water resistant. The Motorola Droid Razr Maxx can certainly still get water damage if exposed to water. If the device has water damage, it would not be covered under the manufactures warranty.

Pemerintah Bayangan & Big Brother merupakan buku lanjutan dari The New World Order. Dalam praktiknya, NWO setidaknya membutuhkan Satu (tatanan) Ekonomi, Satu (sistem) Pemerintah & Pemerintahan serta Satu Agama (bersama). Buku kedua ini dimaksudkan untuk menjelaskan salah satu aspek " HOW " Satu (sistem) Pemerintah & Pemerintahan dijalankan. Bentuk awal dari One World Government ialah dengan memiliki, menciptakan dan menjalankan " Pemerintah & Pemerintahan bayangan " (Shadow Governments) di negara-negara yang dibutuhkan untuk mengendalikan dan menuntun " Pemerintah & Pemerintahan Resmi " baik melalui persetujuan atau penaklukan. Berbagai Shadow Government wajib bersifat totaliter dalam mengendalikan populasi/peduduk dunia. Totalitarianisme tersebut, setidaknya, dijalankan melalu " surveillance " secara global bagi setiap individu, kelompok, negara yang diinginkan. Satelit, telephone / cellphone, internet, CCTV , RFID, teknologi Biometik merupakan piranti pengintai yang bekerja tanpa jeda, melacak posisi dan mengidentifikasi Anda dan saya. Salah satu manifestasi surveilance massal — Big Brother dalam novel 1984-nya George Orwell — dapat dilihat dari National Security Agency (NSA) Pemerintah bayangan di Amerika Serikat. Melalui buku ini, kita akan memahami bagaimana setiap individu yang diinginkan diawasi 24 jam sehari semalam dan mulai mengerti kenapa Pemerintah & Pemerintahan Resmi selalu menjadi pecundang. - Pustaka Al-Kautsar Publisher -

"Love and marriage brought American anthropologist Elizabeth Enslin to a world she never planned to make her own: a life among Brahman in-laws in a remote village in the plains of Nepal. As she faced the challenges of married life, birth, and childrearing in a foreign culture, she discovered as much about human resilience, and the capacity for courage, as she did about herself. While the Gods Were Sleeping : A Journey Through Love and Rebellion in Nepal tells a compelling story of a woman transformed in intimate and unexpected ways. Set against the backdrop of increasing political turmoil in Nepal, Enslin's story takes us deep into the lives of local women as they claim their rightful place in society--and make their voices heard"--Provided by publisher.

What happens when life takes a direction you don't expect? In this hybrid of self help and memoir, Darryle Pollack answers that question with humor, heart and hope. Her story will inspire and help others to find purpose and power in their own broken pieces; and proves that what breaks can bring the breakthrough. This is everything a satisfying memoir should be. It tells a very personal but universal story. The experiences are shared with honesty and insight. The prose is girl-friend casual and evocative at the same time. And, perhaps best of all, it is very funny. --- Suzanne Braun Levine, first editor of Ms. magazine, author of Inventing the Rest of Our Lives A funny and moving how-to, with wisdom all of us can use about putting our lives back together when all seems lost. ---Iris Rainer Dart, author of Beaches

Video games can instil amazing qualities in children — curiosity, resilience, patience and problem-solving to name a few — but with the World Health Organisation naming gaming disorder as a clinically diagnosable condition, parents and carers can worry about what video games are doing to their children. Andy Robertson has dealt with all of the above, not just over years of covering this topic fo newspapers, radio and television but as a father of three. In this guide, he offers parents and carers practical advice and insights — combining his own experiences with the latest research and guidance from psychologists, industry experts, schools and children's charities — alongside a treasure trove of 'gaming recipes' to test out in your family. Worrying about video game screen time, violence, expense and addiction is an understandable response to scary newspaper headlines. But with first-hand understanding of the video games your children love to play, you can anchor them as a healthy part of family life. Supported by the www.taminggaming.com Family Video Game Database, Taming Gaming leads you into doing this so that video games can stop being a point of argument, worry and stress and start providing fulfilling, connecting and ambitious experiences together as a family.

Carnitine Metabolism and Human Nutrition offers a contemporary and in-depth look at the biological effects of carnitine metabolism and its application to clinical and sports nutrition, based on decades of robust scientific enquiry. It gathers and distills key results of the last 20 years of carnitine research to provide an invaluable reference tool for students, researchers, and clinicians. This book addresses the importance of carnitine in skeletal muscle fuel metabolism, the complexities and importance of muscle carnitine transport, and the metabolic insight that has been gained from experiments manipulating muscle carnitine stores. The authors cover the potential application of carnitine supplementation in specific clinical populations and the role of carnitine as an ergogenic aid for athletes. They also provide a comprehensive mechanistic overview of skeletal muscle insulin resistance, including the role of carnitine shuttle systems in the metabolic abnormalities associated with obesity and the metabolic syndrome. Carnitine Metabolism and Human Nutrition provides you with a comprehensive and up-to-date look at the properties and underlying metabolic biochemistry of carnitine. The book provides contributions from leading international scientists, each a pioneer in their chosen study of carnitine metabolism or its application to human nutrition.

Ceres 2525 is a spiritual sci-fi action novel about 25 year old Galactic military veteran Ceres Tauri. The playboy superstar of the zero-gravity league, Ceres searches for his parents, long held captive among the Galactic's 500 colony worlds. When he too is kidnapped by the pirate fleet, forced to duel to save a beautiful slave girl with a powerful secret, he determines to fight his way to the top of the pirate ranks. Can he kill his own father to rescue his mother? Who can save his soul, even from himself? Let me ask you: Do you read fiction? Why? You want to be teleported away from your normal real life, transported into an exotic fantasy world, having exciting adventures with your most interesting new friends you love and enemies you love to hate, right? What if we could pop up to a spacecraft right now? Where would you want to go? The Moon? Saturn? The asteroids? Who's up for that adventure right now? Raise your hand! Let's set course and fly out to the asteroid belt. Do you know the name of the largest asteroid up there? Ceres. (sounds like "series," as in "world series.") Let's imagine that's your home. You were born there, so of course, your mom named you after home: Ceres. A while back, your mom was kidnapped. They almost got you too, but you got away. Since then, your family put you up in a military school, not the brick institutional kind, though, the remote martial arts do'jo kind! Cool, huh? Like living in a top martial arts movie. Then, that place was attacked. They were trying to kidnap you again. Sheesh, being a member of the wealthiest family in the galaxy makes you such a target, huh? Oh, I forgot to mention... Asteroid Ceres is worth between 120 and 150 Trillion Dollars. So yeah, your family is the wealthiest in the galaxy. Lucky you! But unlucky, people do try to kidnap you all the time... like your mom. So, you grow up in space, tramp around on your uncle's starship, you go to college, military academy... learn to pilot star ships, how to design and build them too. Good in sports- like "the Athlete of the Millenium" of zero-gravity basketball good. Spend a few years in military service aboard starships. A few adventures, a few buddies, and a few ladies... Now that's done, you are free to start your adult career, start your life. You can be and do anything you imagine, desire, and work hard towards achieving. But, you are stuck at one point in your life: still no mom. What? Nothing? Still no clues? What are you going to do? Better question: You're trained like a martial arts star, equipped like a special agent, tall, rugged, and handsome like an iconic cowboy... What do you think THAT guy's gonna do? Go find mom, right? No question! Here you go, it's easy in 2525. Take your boarding pass to the spaceport. Telepod pops you up to the space station, float into your luxury starship and cruise away from Earth. Set course for the wormhole station, and through there, anywhere. Let's journey through a wormhole to a star on the outer rim of the galaxy, out there beyond the Carina Arm, to the Periphery of the Milky Way. You are going to the luxury penthouse suite of a city on a "Super-Earth" planet. Remember back on Earth, the Burj Khalifa hyper tower in Dubai, at 2700 feet tall it's a half a mile up, almost one kilometer! This is dwarfed by, The Arcology, an entire self-contained city for one million people, a stretched glass pyramid 12 kilometers tall. And you are standing there at 10 km high in a penthouse suite. From up here you can see the curvature of the world! You look out the crysteel window and see four more Arcology towers arranged around the city center. Oh, and the pirates coming. Sorry, I forgot to mention them again, didn't I?
