Winner of the prestigious André Simon Drink Book Award The first definitive reference book to describe, region-by-region, how the great wines of Europe should taste. This will be the go-to guide for aspiring sommeliers, wine aficionados who want to improve their blind tasting skills, and amateur enthusiasts looking for a straightforward and visceral way to understand and describe wine. In this seminal addition to the wine canon, noted experts Rajat Parr and Jordan Mackay share everything they've learned in their decades of tasting wine. The result is the most in-depth study of the world's greatest wine regions ever published. There are books that describe the geography of wine regions. And there are books that describe the way basic wines and grapes should taste. But there are no books that describe the intricacies of the way wines from various subregions, soils, and appellations should taste. Now, for the first time ever, you can learn about the differences between wines from the 7 grand crus and 40 premier crus of Chablis, or the terroirs in Barolo, Champagne, and Bordeaux. Paying attention to styles, winemakers, soils, and the most cutting-edge of trends, this book explains how to understand the wines of the world not in the classical way, but in the modern way--appellation by appellation, soil by soil, technique by technique--making it an essential reference and instant classic.

"The essay, like love, like life, is indefinable, but you know an essay when you see it, and you know a great one when you feel it, because it is concentrated life," writes Hilton Als in his introduction. Expertly guided by Als's instinct and intellect, The Best American Essays 2018 showcases great essays as well as

irresistibly eclectic ones. Go undercover in North Korea, delve into the question of race in the novels of William Faulkner, hang out in the 1970s New York music scene, and take a family road trip cum art pilgrimage. These experiences and more immersive slices of concentrated life await.

There are nearly 1,400 known varieties of wine grapes in the world—from altesse to zierfandler—but 80 percent of the wine we drink is made from only 20 grapes. In *Godforsaken Grapes*, Jason Wilson looks at how that came to be and embarks on a journey to discover what we miss. Stemming from his own growing obsession, Wilson moves far beyond the “noble grapes,” hunting down obscure and underappreciated wines from Switzerland, Austria, Portugal, France, Italy, the United States, and beyond. In the process, he looks at why these wines fell out of favor (or never gained it in the first place), what it means to be obscure, and how geopolitics, economics, and fashion have changed what we drink. A combination of travel memoir and epicurean adventure, *Godforsaken Grapes* is an entertaining love letter to wine.

Too much wine? Not last night, but at the wine store where it's bewildering to choose something good. In this friendly guide, a wine expert curates a shortlist of 36 bottles to try (3 varieties per month—a red, a white, plus something else like a sparkling or rose) and explains in an accessible, humorous style what and who makes each worth drinking. In addition, 30 recipes for monthly meals connect seasonal food to wine, composing beautiful sensory experiences. This book proves you don't need an encyclopedia when a handpicked selection delivers a world of wine.

A New York Times Best Wine Book of 2018 *Flawless* is the first book of its kind dedicated to exploring the main causes of faults in wine. From cork taint, to volatile acidity, to off-putting aromas and flavors, all wine connoisseurs have encountered unappealing qualities in a disappointing bottle. But are all faults truly bad? Are some even desirable? Jamie Goode brings his authoritative voice to the table once again to demystify the science behind what causes a good bottle to go bad. By exposing the root causes of faults in wine, *Flawless* challenges us to rethink our assumptions about how wine should taste and how we can understand beauty in a glass.

With its fun, conversational tone and funky maps, infographics, and illustrations, *How to Drink Wine* is a brand-new kind of wine resource. Instead of drilling down into the nitty-gritty details of one specific region or varietal, it gives a digestible overview for anyone who's looking to learn the basics or up their wine game. Award-winning sommelier Grant Reynolds and *The Infatuation* co-founder and CEO Chris Stang help boost your wine confidence in the most unpretentious way with information on navigating the store, dissecting a label, tasting in public without looking like a jerk, building your vocab (hello, “tannins” and “cuvee”), pairing your wine with social situations (think brunch, beach days, and pizza nights). They walk you through how to figure out exactly what you like to drink, framing it through the lens of the most widely accessible types—for instance, if pinot noir is your usual jam, try a bottle from Beaujolais next time. With this book, a wine key, and just one kind of glass (really!), you're sure to become the resident wine expert—or at least be able to fake it really well.
